

DIMAS ALVA RIZKI

Cilacap, Jawa Tengah, Indonesia

alvarizkidimas@gmail.com | [LinkedIn](#) | [Portofolio](#) | [6281225692689](#)

Bachelor of Informatics Engineering student at Universitas Muhammadiyah Purwokerto with expertise in full-stack web development. Proficient in JavaScript, Node.js, Express.js, Next.js, PHP, Laravel, REST API development, and database integration. Experienced in building responsive web applications, integrating Artificial Intelligence (AI) systems, optimizing backend performance, and applying clean code practices. Passionate about software engineering, problem-solving, and translating complex technical issues into efficient logical solutions.

EDUCATION

UNIVERSITAS MUHAMMADIYAH PURWOKERTO

Purwokerto, Central Java, Indonesia

Bachelor of Informatics Engineering | GPA: 3.76/4.00 ([Transcript](#))

2022 – 2026

- Completed all academic requirements and final project via the non-thesis track by submitting and publishing a research article to a national computer science journal. ([Journal](#))

EXPERIENCE

Sales and Content Creator - *Out of the Boox By Mizan*

June 2025 - July 2025

Out of the Boox is a creative retail and exhibition initiative by Noura Publishing, focusing on interactive book exhibitions, literacy events, and engaging customer experiences.

- Increased brand awareness through active selling and the creation of User Generated Content (UGC) during exhibition events.
- Managed booth operations, including product display arrangement and inventory stock management.

Full Stack Web Developer - *Dicoding (Independent Study)*

September 2024 - December 2024

Magang dan Studi Independen Bersertifikat (MSIB) is a flagship national education program by the Ministry of Education, partnered with technology platforms like Dicoding to provide intensive, industry-standard software development training.

- Developed responsive web applications utilizing HTML, CSS, and JavaScript (Front-End) alongside PHP/MySQL (Back-End).
- Implemented RESTful APIs to seamlessly connect user interfaces with servers and databases.
- Collaborated within an Agile team environment to build the "Haid Tracker" application, following SDLC principles from feature implementation to debugging.
- Translated UI/UX designs from Figma into functional, interactive interface code.

Media Division Coordinator - *Universitas Muhammadiyah Purwokerto*

May 2024 - September 2024

Musyawarah Akbar Mahasiswa Teknik dan Sains is an annual grand assembly and strategic conference organized by the engineering and science student faculties at Universitas Muhammadiyah Purwokerto.

- Led a team in managing social media platforms, researching content trends, and producing visual materials (including ID cards and pamphlets) to support event execution.

Social Media Intern - *PT Bukhori Grup Indonesia (Internship)*

April 2024 - July 2024

PT Bukhori Grup Indonesia is a corporate enterprise that utilizes digital platforms and strategic social media campaigns to expand its market presence and engage with its customer base.

- Managed publication schedules, developed creative content strategies based on current trend research, and interacted directly with audiences to boost customer engagement

SKILLS

Methodologies & Testing: Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Functional Testing, Bug Tracking, API Testing.

Programming Languages: PHP, JavaScript, Python

Frameworks & Libraries: Laravel, Node.js, Express.js, Next.js, Tailwind CSS, TensorFlow.js (Face-API.js), Bootstrap.

Database & API: MySQL, RESTful API, OpenRouter API

Tools & Platforms: Git/GitHub, Heroku, ngrok, cron-job.org, AI Tools (Gemini, Copilot), Adobe Photoshop

Soft Skills: Analytical Thinking, Problem Solving, Discipline, Responsibility, Teamwork, Creative Innovation

Languages: Indonesian, English
